

PUBLIC SHOULD TAKE EVERY PRECAUTION TO GUARD AGAINST "FLU"

Reports Show that Influenza Epidemic is Gaining Headway in Many Sections of the Country.

KEEP SYSTEM IN BEST POSSIBLE CONDITION

Persons Weak and Run-down Are Earliest Victims. Fortify Against Attack By Taking Tanlac.

According to late press reports issued by state and city health authorities, influenza is again becoming epidemic in many sections, and some alarm is now felt that it may become general over the entire country. Owing to the lateness of the season it is not thought possible that the disease can become the great and terrifying scourge that it was last year, when it swept the entire country and claimed its victims by the hundreds of thousands. The danger is too great, however, to take any chances, and everything possible should be done to ward it off.

Medical authorities agree that people who are weak and run-down are the earliest victims of influenza. If you find yourself tired (and nervous), weak, and losing flesh, or if you are in a generally run-down condition or catch cold easily, this warning should be heeded promptly. You are really in danger if exposed to the disease because it is generally believed to be

very contagious, and you are apt to fall an easy victim if you come in contact with the germs.

People who are well and strong are not likely to contract the disease because they are able to throw it off. The common-sense way to keep from taking it is to fortify the system against attack by building up the constitution. In other words, begin immediately to build up your powers of resistance.

To accomplish this it has been demonstrated that nothing on earth will strengthen you and build you up like Tanlac, the powerful reconstructive tonic which contains the very elements needed to build up the system and give you fighting strength to ward off the influenza germ.

First of all, Tanlac begins its work by creating a good, healthy appetite for wholesome, nourishing food, and assists every organ of the body to perform its natural function, thus helping to build up health and strength in the natural way.

Tanlac is also an ideal strengthening tonic for persons who are suffering from the after-effects of influenza, grippe, and bronchial troubles, and hundreds of thousands are using it daily with the most gratifying results.

In connection with the Tanlac treatment it is necessary to keep the bowels open by taking Tanlac Laxative Tablets, samples of which are enclosed with every bottle of Tanlac. It is also important that the everyday rules of hygiene be observed, that is, sleep in well-ventilated rooms, get plenty of fresh air and exercise, and keep away from crowds.

Tanlac is sold by A. R. McIntyre Drug Co., two busy stores—Advertisement.

COUNT COMPLAINS OF HUNGARIAN TREATY

Treaty Deprives Nation Of Two-Thirds of Its Territory He Declares

BUDAPEST, Monday, Feb. 2.—(By the Associated Press.)—Count Apponyi, head of the Hungarian peace delegation, discussing further the peace settlement, said today:

"The peace treaty would deprive Hungary of two-thirds of her territory and population. Nothing of the kind was inflicted on any of the other belligerent states. Is Hungary then most responsible and most guilty of all? It is incredible as she is least independent."

"As a member of the Austro-Hungarian empire, the documentary evidence proves that she gave her voice against war. But if responsible she is the least responsible. There is no other principle on which her dismemberment can be justified."

"Hungary is the finest geographic and economic unit of Europe, to which ten centuries of possession, broken temporarily by Turkish conquest, have imparted the sanction of time and tradition for its political construction."

"Only one racial unit was wanting to make it perfect. Now this unit is dissolved, our land and 350,000 of our people have been given to new national states."

"In many cases new frontiers are pushed inward, merely to rob us of our flourishing cities which are totally Hungarian. So little note was taken of our conditions that the terms have been copied from the German and Austrian peace treaties."

"We can discover in the treaty nothing but the reflections of the juvenile appetites of neighboring states, unimpaired of their own powers of digestion and devoid of any sense of responsibility toward the future of Europe. But we cannot conceive that the great allied powers, alive to such responsibility, should be executors of such irresponsible greed."

WOMAN DEMOCRATS WELL ORGANIZED

Charter Granted in New York and Every Section of United States to be Reached

NEW YORK, Feb. 5.—The Woman Democrats of America, a national organization for the purpose of organizing Democratic women as a separate section of the Democratic party, was formally launched yesterday at a meeting of well-known Democratic women. The charter recently granted the organization by the New York supreme court was adopted and officers elected.

The officers chosen were: Temporary Chairman, Mrs. Henry P. Keith; Active Vice Chairman, Elizabeth Marbury and Miss Adelaide Sterling; Honorary Vice Chairman, Mrs. George H. Childs; Mrs. Louis Nixon; Mrs. Leslie Abbott of North Carolina; Mrs. Ella O'Gorman Stanton; Mrs. Frederick Cranford; Mrs. W. K. Vanderbilt, Jr.; Mrs. Borden Harriman and Mrs. Elizabeth Colbert; Recording Secretary, Mrs. P. J. Gant; Corresponding Secretary, Mrs. Charles D. Hirst; Treasurer, Miss Louise Tucker; and Director of Organization, Mrs. Mary A. Moss of Buffalo.

The purpose of the new organization as set forth by the certificate of incorporation is:

"To organize the Democratic women of America within the national Democratic party, but separate from the men, on a system modeled somewhat after the Democratic form of government, with a national organization of the women of the party, consisting of national council, state divisions, county chapters and senatorial, assembly and other election district units."

ROBBERY OF BROKER SENSATIONAL STORY

Familiar Confidence Game Is Played in Political Plot to Gain Control of Ukraine Legation

VIENNA, Jan. 15.—A Vienna money broker was robbed of 2,000,000 rubles the other day in a political plot to obtain control of the Ukrainian legation here. The story as worked out by the police is as good as a play.

The scheme was the familiar confidence game of inducing the broker to violate the law and of seizure of the money by criminals disguised as gendarmes.

A supposed Ukrainian general recently arrived in Vienna and engaged with a money broker to buy up to 2,000,000 rubles. It is illegal in Austria to deal in foreign money or to have it in private possession, and all foreign exchange is done through authorized banks. The broker agreed to have the amount in hand on a certain day. He lived and conducted his business in a hotel.

Confidence Game Played. On the appointed afternoon, but a little ahead of time, a man in the uniform of a Ukrainian colonel called on the broker and saluting said he had come for General X's money. They sat down to a table to check the money, when the door was opened and two gendarmes walked in and placed both under arrest on the charge of possession and dealing in foreign money.

The broker begged and protested and finally was told to appear in court on the following day, his record being taken with the greatest care and particularity. But the colonel's protests were unavailing. He stormed and invoked his nationality in vain. The two policemen gathered up the money counted it, and, giving a receipt, told the broker to appear promptly before the authorities.

Then, taking the colonel, they left. An hour later the broker woke up to the fact that the colonel and the two gendarmes were fakers and he had been robbed of some 2,000,000 rubles.

Vienna Police Get Busy. The Vienna police are efficient in this kind of thing, in a day or two had gathered in two of the swindlers, but not the one with the money. Working on the case they finally ascertained that the money was to be used for political ends. The plan, according to the police reports, was a plot to seize the Ukrainian legation here by an opposing political faction, get possession of the records and seals and defy the existing government, a plot characteristic of the present unsettled state of affairs in eastern Europe. The legation, however, had wind of it and was prepared for whatever might happen. The police say this is the second plot to the same end frustrated.

Pine Manufacturers Revise Grading Rules

SPOKANE, Wash., Feb. 5.—T. A. McCain, of Bend, Ore., was re-elected president of the Western Pine Manufacturers' association here. W. C. Lubrecht, of Bonner, Idaho, was elected vice president, and Huntington Taylor of Coeur d'Alene, Idaho, treasurer.

The convention of the association adjourned after adopting revised lumber grading rules. A committee to report on advisability of organizing a mutual insurance department of the association was named and national forest policies were discussed.

STANDARD HOOPSTERS DEFEATED AT ARMORY

Buchmiller-Kaplan Players Get Close Contest from League Leaders, 26-24

In one of the most closely contested games of the season in local basketball circles the re-strengthened Buchmiller-Kaplan basketball aggregation handed the Ogden Standard quintet a defeat last night at the Armory, the score being 26 to 24.

Although the Buchmiller-Kaplan players defeated the Standard quintet the standing of teams in the league race will not be affected as the regular scheduled games were halted last night on account of the influenza epidemic. However, the two aggregations are scheduled to clash next week and if the Standard is again defeated the winners will have a good chance to cop league honors.

Williams and Couch played star ball for the Standard players last night while Douglas and Gray were the bright lights for the winners.

The line-up:

Buchmiller-Kaplan. Standard. K. Shreve. Anderson. Steele. Foutz. Douglas. Everetts. Henry. Huss. Referee—Shreve.

DECEEDLY UNPLEASANT! "don't understand all these daylight robberies," said the police officer.

Too Much Tobacco After Forty-five Suicidal, Says Doctor

Immediate use of tobacco after forty-five is suicidal, says Dr. Hirschfeld, eminent medical authority, and one of the worst habits for anyone, any time, and how much you can stand can only be told after it is too late. If you have used too much, better to quit, and here Nicotol will help you. Get a few Nicotol tablets and follow the directions. They drive the craving from you. If you want to resume after seeing how much better you feel without tobacco you can do so any time. Nicotol is sold under a positive money-back guarantee. It costs you little to quit and nothing if Nicotol fails.

Note: If you know you are smoking too much let Nicotol help you reduce the quantity and show you how easy it is to quit altogether. Ask your druggist about the success of Nicotol. He knows and can be counted on to tell you the truth.—Advertisement.

WHICH REMINDS US THAT—There's nothing like a pessimistic background to show an optimist up.

Famous Old Recipe for Cough Syrup. Really and cheaply made at home, but it beats them all for quick results.

Thousands of housewives have found that they can save two-thirds of the money usually spent for cough preparation, by using the well-known old recipe for making cough syrup at home. It is simple and cheap but it has no equal for prompt results. It takes right hold of a cough and gives immediate relief, usually stopping an ordinary cough in 24 hours or less.

Get 2½ ounces of Pinex from any druggist, pour it into a pint bottle and add plain granulated sugar syrup to make a full pint. If you prefer, use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, it tastes good, keeps perfectly, and lasts a family a long time.

It's truly astonishing how quickly it acts, penetrating through every air passage of the throat and lungs—loosens and raises the phlegm, soothes and heals the membranes, and gradually but surely the annoying throat tickle and dreaded cough disappear entirely. Nothing better for bronchitis, spasmodic croup, hoarseness or bronchial asthma.

Pinex is a special and highly concentrated compound of genuine Norway pine extract, known the world over for its healing effect on the membranes.

Avoid disappointment by asking your druggist for "2½ ounces of Pinex" with full directions and don't accept anything else. Guaranteed to give absolute relief. The Pinex Co., Ft. Wayne, Ind.

TO GUARD AGAINST INFLUENZA

Don't let the dread influenza get you. If you have even the slightest cough or cold, better begin using Foley's Honey and Tar at once. Henry Willis, Sandy Point, Texas, one of many thousands who consider this remedy "just fine," he says: "I suffered severely with a bad cough; after using four or five dollars' worth of different medicines decided to try Foley's Honey and Tar. One bottle gave relief. Best medicine I ever used." Contains no opiates.—A. R. McIntyre Drug Co.—Advertisement.

People Afflicted With Leprosy Being Cured

HONOLULU, Jan. 12.—Forty-eight persons in Hawaii, afflicted with leprosy, were cured during 1919, according to the statement of Dr. J. T. McDonald, attending physician at the Kalaiki leprosy investigation station here.

The products used in treating the disease, said Dr. McDonald, are refined from a vegetable oil by Dr. A. L. Dean of the College of Hawaii. The surgeon general at Washington has asked for a detailed description of the work for publication in the United States health report, and this now is being prepared.

Highway-Weather List Will Aid Motorists

BOSTON, Feb. 4.—A highway-weather bulletin, containing both the prevailing condition of roads and a week's forecast of probable conditions, has been inaugurated by the United States weather bureau as an aid to motorists throughout New England. For several weeks tourists and truckmen about to start on long trips have been able to learn what sort of going to expect in the various sections, the depth of snow, the presence of ice, whether roads are passable or detours necessary, whether roughness is being worn down or drifts are in the making. The service has been so successful that it is understood, it will be extended to other sections of the country on the same broad scale.

The system of road information contained in the New England Highway Weather Bulletin is based on a plan used overseas for the benefit of army motor convoys. It is in charge of Louis W. Carroll who served in France on meteorological duty which included service of this kind. The idea was tried out in a small way in western states, but New England is the first section to be included in a general forecast and survey and the result here has been awaited to determine whether other groups of states shall be included under the bulletin.

By use of the statement of road conditions and forecast, a person contemplating a trip by road to any part of New England may learn what lies ahead. A motor truckman with a contract to move a load from Boston to Bangor can learn whether there is much or little snow on the Maine roads, if they are mud-rutted as a result of rain, or in condition for a quick haul; and if weather changes are likely to help or hinder the trip. Similarly, a motor tourist contemplating a trip through the White Mountains instead of starting off into the unknown, will know in advance whether rain or snow has, or is likely to, impose burdens on travel, and may postpone the trip or so shape it as to avoid sections in which conditions are shown to be unfavorable.

All main routes of highway traffic from Maine to Rhode Island are covered in the detailed summary of prevailing conditions.

The amount of snow in the several sections is indicated by a map, with varied shadings arranged to show whether the snow blanket is less than three inches, between three and six inches, or over six inches deep. In the spring the presence of frost and mud will be indicated, in summer conditions of rain and road repairs.

Observers are posted at 200 places throughout New England, from which they send in weekly reports covering conditions of weather and information as to roads that are impassable.

CUT THIS OUT

OLD ENGLISH RECIPE FOR CATARRH, CATARRHAL DEAFNESS AND HEAD NOISES.

If you know of some one who is troubled with Catarrhal Deafness, head noises or ordinary catarrh cut out this formula and hand it to them and you may have been the means of saving some poor sufferer perhaps from total deafness. In England scientists for a long time past have recognized that catarrh is a constitutional disease and necessarily requires constitutional treatment.

Sprays, inhalers and nose douches are liable to irritate the delicate air passages and force the disease into the middle ear which frequently means total deafness, or else the disease may be driven down the air passages towards the lungs which is equally as dangerous. The following formula which is used extensively in the damp English climate is a constitutional treatment and should prove especially efficacious to sufferers here who live under more favorable climate conditions.

Secure from your druggist 1 ounce of Parmitin (Double strength). Take this home and add to it ¼ pint of hot water and a little granulated sugar; stir until dissolved. Take one teaspoonful four times a day. This will often bring quick relief from distressing head noises. Closed nostrils should open, breathing become easy and hearing improve as the inflammation in the eustachian tubes is reduced. Parmitin used in this way acts directly upon the blood and mucous surfaces of the system and has a tonic action that helps to obtain the desired results. The preparation is easy to make, costs little and is pleasant to take. Every person who has catarrh or head noises or is hard of hearing should give this treatment a trial.—Advertisement.

Strike of Seattle Job Printers Ends

SEATTLE, Wash., Feb. 5.—A strike of Seattle job printers has been settled, union men said here, and strikers are returning to work. One of the demands was for a scale of \$7 for a seven hour day. They received \$7 for an 8 hour day. Their demand for the closed shop was met by a decision of the employees to hire union men only after the non-union men now in their employ had left. The employers were given six months in which to discharge the non-union men.
